

EPOXY FITTINGS DIMENSIONS

2"-16" Green Thread® (GT) fittings may be used with Green Thread and Red Thread® II (RT II) piping. Refer to "Chemical Resistance Guide," Bulletin No. E5615, for chemical recommendations.

2"-16" Red Thread II fittings may be used on Red Thread II piping.

1"-1½" fittings are available in Green Thread products only.

90° ELBOWS⁽¹⁾ 1" and 16" parts are available in Green Thread only.

- (1) "A" dimensions shown are for GREEN THREAD fittings. 1"-6" fittings are compression molded; 8"-16" fittings are filament wound.
 (2) Nominal make-up dimension for drawing layout work only using non-threaded spigots. Do not use for assembly dimensions.
 (3) Flanges should be joined to flat-faced flanges. When joining to raised-faced flange connections, consult installation or engineering manuals F6000 & E5000. Bolt torque, gasket thickness and hardness recommendations are in manual F6000.

SLEEVE COUPLINGS

⁽¹⁾Nominal make-up dimension for drawing layout work only using non-threaded spigots. Do not use for assembly dimensions.
⁽²⁾ Flanges should be joined to flat-faced flanges. When joining to raised-faced flange connections, consult installation or engineering manuals F6000 & E5000. Gasket thickness and hardness recommendations are in manual F6000.

NOTE: MULTI-STEP and ECCENTRIC reducers are available through 16" sizes. Information is available on request.

⁽¹⁾ Nominal make-up dimension for drawing layout work only using non-threaded spigots. Do not use for assembly dimensions.

⁽²⁾ Also available on special order for 300 psig steady pressure service with belled ends.

⁽³⁾ Flanges should be joined to flat-faced flanges. When joining to raised-faced flange connections, consult installation or engineering manuals F6000 & E5000. Bolt torque, gasket thickness and hardness recommendations are in manual F6000. These comments also apply to the flanged concentric reducers on the following page.

⁽¹⁾ Nominal make-up dimension for drawing layout work only using non-threaded spigots. Do not use for assembly dimensions.

⁽²⁾ Saddle is manufactured by bonding a reducer bushing into a saddle with a 2" outlet.

SADDLES, Continued (Parts are available in Green Thread only.)
