

TJ-IV Project Maracaibo Lake, Venezuela

Application: Firewater piping

Product: 1"-10" Green Thread® 175/250 Marine Offshore Piping

Features & Benefits: Green Thread 175 pipe is rated to 175 psig and Green Thread 250 is rated to 250 psig handling service temperatures up to 230°F/110°C. The system is fully qualified for IMO Level-3 fire resistance. Conductive carbon fibers are an integral part of the pipe wall for use in hazardous areas.

This non-corrosive piping outlasts steel and the light weight of the piping offers savings in construction of floating offshore structures/vessels.
