

# Navajo Generating Station

Application: Hot brine concentrate and wastewater in sump areas

Location: Page, Arizona

Product: 10" Centricast® RB-2530 and RB-1520 pipe and fittings

Features & Benefits: The RB-2530 pipe and fittings replaces existing limestone feed piping system using 5D FRP abrasion resistant elbows.

RB-1520 pipe and fittings were installed to replace carbon steel in the wastewater system that had rusted and failed.
